

FLEETWOOD MAC

For Immediate Release
Monday September 8

THE MAC IS BACK ! FLEETWOOD MAC "SAY YOU WILL" AUSTRALIAN TOUR

Fleetwood Mac, one of the most influential and enduring groups in modern musical history, are on their way to Australia.

Stevie Nicks, Lindsey Buckingham, Mick Fleetwood and John McVie will be performing songs from their world class catalogue of hits, as well as from their new album "Say You Will" in a two-hour plus show set to be the stand-out concert event of the summer. The Mac is back!

It will be the band's first visit to Australia since 1990 and comes hot on the heels of a massive US arena tour which has received such phenomenal feedback that further shows through Sept/Oct have been added due to overwhelming demand.

Fleetwood Mac made history in the mid-Seventies with the release of such era-defining albums as "Fleetwood Mac", "Rumours" and "Tusk". Their catalogue of smash hits from "Don't Stop", to "Rhiannon", to "Go Your Own Way" to "Landslide" (currently a huge hit for the Dixie Chicks) and beyond – constitutes a soundtrack for our times. As fresh and original today as when they first defined the rock & roll idiom, it is that same creative history that continues with "Say You Will".

"Say You Will" debuted at #3 on the Billboard US charts, rocketed to US Gold status and has provided the band with some of the best reviews of their long and extraordinary career. The latest single is the album's title track, a classic Stevie Nicks penned song, which is accompanied by a live video shot during the US tour.

In a recent seven-page feature in Interview magazine in the US, Lindsey Buckingham says, "It's really touching that we can come back after so long and care about making an album that says as much as this one does. And after all this time, we really do care about each other. Our chemistry is what made us a great band to begin with. That it's potent after 16 years apart is pretty amazing."

Experience the extraordinary magic of Fleetwood Mac live.
